

Environmental Corporate Policy

As a good corporate citizen, Toyota Motor Manufacturing Canada Inc. (TMMC) is committed to protecting the environment and ensuring that its automobile manufacturing operations are safe for its team members, the community and the environment. To support this commitment, it is our policy to:

- Actively promote environmental awareness among team members through continual education and training.
- Strive to meet all compliance obligations as well as other requirements related to the environment.
- Lead activities to protect the environment, including pollution prevention and continual improvement activities that are relevant to the context of the organization.
- Environmental objectives and targets will be set and regularly assessed in order to ensure the continuation of proactive environmental procedures and practices.
